

VIVREAU Extra 50/85

Minimalistic and marvellous water dispenser.

Stylish. Slim. And simply brilliant. The new BRITA VIVREAU Extra range is the result of over 50 years' experience in water filtration. These water dispensers boast the very best features of the flagship BRITA Sodamaster Tap. And take them to the next level.

Wherever they are installed, BRITA VIVREAU Extra units fit right in. The minimalistic tap, available in two heights, and drip tray are all you see. The cooler-carbonator and connections all remain out of sight – for a sleek, elegant look. And this compact, attractive design is not the only plus. Inside each and every dispenser is powerful, proven BRITA filtration technology.

What's more, each unit is equipped with BRITA's advanced ThermalGate™ hygiene feature as standard. This thermally disinfects the tap, so you can count on delicious, clean water of the highest quality. There's also a further option – the advanced BRITA HygienePlus solution – for environments where hygiene is of the utmost importance.

 Opt for clean.
Opt for green.

At BRITA we have always cared about the environment. Our philosophy is to provide the best quality water from the most local source, eliminating the need for costly and polluting transportation and packaging. The installation of a BRITA water dispenser has an immediate impact on your ecological footprint.

The benefits to you

- Powerful ThermalGate™ feature or optional BRITA HygienePlus solution
- Improved cooling capacity, tailored to medium to high consumption needs
- Elegant water dispenser: cooler-carbonator concealed in cabinet, only premium tap is visible
- Focus on sustainability: R290 natural refrigerant and extremely low power consumption
- A choice of four types of great-tasting BRITA-filtered water
- One-stop solution: BRITA service engineers install the system, replace filters and provide maintenance
- The food-grade quality and safety of BRITA water filter products are tested and verified by independent institutions

Hygiene concept

The BRITA VIVREAU Extra range includes BRITA's powerful **ThermalGate™** as standard. This feature thermally disinfects the tap to protect against contamination from external sources. It heats up at regular intervals, keeping the unit clean – even during periods of inactivity, e.g. on holidays and weekends.

For scenarios where exceptional hygiene is vital, the optional **BRITA HygienePlus** is available. This feature comprises three elements: a **BRITA CLARITY Protect 100** inlet filter, a downstream **BRITA CLARITY X3** bacterial filter, and **BRITA ThermalGate™**. Together, they reliably remove 99.99999% of bacteria, meeting the requirements of hygiene-sensitive environments (testing procedure is based on ASTM F838, an international recognised standard in the medical technology field).

Corresponding accessories

BRITA bottles are the perfect match for the BRITA VIVREAU Extra range. They are available in multiple shapes, sizes and colours, and in glass or a fracture-resistant BPA-free plastic. What's more, the bottles can be customised, e.g. with a logo, image or slogan to strengthen corporate identity or raise brand awareness.
