

VIVREAU Sodamaster 200

Multi-Talent with BRITA Hygiene Solution

The new, upgraded BRITA VIVREAU Sodamaster 200 is the high-performance water dispenser from the BRITA VIVREAU Sodamaster product series. It provides chilled still or sparkling (optional medium or classic) or unchilled still water. All water dispensers of the product series BRITA VIVREAU Sodamaster are equipped with the Thermal Germ Barrier to avoid retrograde contamination. Equipped with the effective three-zone-protection **BRITA Hygiene Solution** - including the Thermal Germ Barrier - it offers the perfect solution for special hygiene demands.

 Opt for clean.
Opt for green.

At BRITA we have always cared about the environment. Our philosophy is to provide the best quality water from the most local source, eliminating the need for costly and polluting transportation and packaging. The installation of a BRITA water dispenser has an immediate impact on your ecological footprint.

The benefits to you

- High-performance water dispenser for high consumption demands
- Unlimited unchilled still, chilled still or chilled sparkling (optional medium or classic) water on demand
- Proven cost savings and environmental benefits versus pre-bottled waters
- High-quality materials (stainless steel)
- Modern glass touch interface
- Individual adjustment of water temperature
- Thermal Germ Barrier as standard
- Effective three-zone-protection BRITA Hygiene Solution optional
- Programmable portion control

Safety and Hygiene Concept

The effective **BRITA Hygiene Solution** is a special hygienic concept, dedicated for highly sensitive areas, such as hospitals. It consists of three important elements:

- The inlet filter (BRITA CLARITY Protect) with a 0.15 µm membrane retains bacteria from the tap water.
- The BRITA CLARITY Safe X3 filter retains any potentially remaining bacteria and cysts before the water is dispensed.
- The Thermal Germ Barrier protects from retrograde contamination.

This special three-zone-protection provides the safety requirements especially needed in sensitive areas. This is proven by numerous long-term studies of hygiene institutions.

Corresponding accessories

With our accessories you make life even easier and the water supply even smoother.
